

VLADIMIR ROMAIIKIN

FULLSTACK DEVELOPER

SUMMARY

Fullstack Developer with experience in web development, database management, and backend infrastructure. I have successfully completed a full-stack development training program at AIT TR GmbH (Berlin), gaining expertise in the entire software development lifecycle—from architecture design to deployment and optimization. With a background in IT project management and business process automation, I bring a strategic and technical perspective to software development.

TECHNICAL SKILLS

WEB DEVELOPMENT & SOFTWARE ENGINEERING

WEB & SOFTWARE DEVELOPMENT

- Designing and developing REST APIs using Spring Boot.
- Working with SQL & NoSQL databases (PostgreSQL, MySQL, MongoDB).
- Implementing frontend applications with HTML5, CSS3, JavaScript, React.
- Utilizing Git, GitHub, CI/CD (Jenkins, Docker, Kubernetes) for version control and deployment automation.
- Developing automated tests (JUnit, Selenium, Postman) for quality assurance.
- Optimizing server applications, load balancing, and infrastructure management.

TOOLS & TECHNOLOGIES

- Backend: Java, Spring Boot, Hibernate
- Frontend: HTML5, CSS3, JavaScript, React
- Databases: PostgreSQL, MySQL, MongoDB
- CI/CD & DevOps: Git, GitHub, Jenkins, Docker, Kubernetes
- Testing & QA: Selenium, Postman, JUnit
- Cloud & Infrastructure: AWS, Docker, Kubernetes

WORK EXPERIENCE

Fullstack Developer

AIT TR GmbH, Germany

2024 – 2025

Completed an intensive fullstack development training program, mastering key technologies and best practices. Built several academic and commercial projects using Spring Boot, Java, React, PostgreSQL.

CEO

GmbH "ConTrust", Ukraine

2015 – 2024

Led software development and implementation, managed IT projects, and ensured digital product quality. Designed and developed business automation solutions, optimizing workflows and infrastructure.

Head of Public Organization

International Red Cross, Illichivsk, Ukraine

2011 – 2015

Coordinated humanitarian projects, managed operations, and implemented data-driven reporting systems.

EDUCATION

Fullstack Developer

AIT TR GmbH, Germany

2024 – 2025

Completed 960 hours of theoretical training + 160 hours of practical experience covering backend, frontend, databases, DevOps, testing, and software architecture.

Environmental Engineer

Odessa National Ecological University, Ukraine

2005 – 2010

Developed analytical thinking, a systematic approach, and data processing skills, which later contributed to IT project management and software engineering.
