

VLADIMIR ROMAIIKIN

QA MANUAL AND AUTOMATION TESTER

SUMMARY

QA Manual & Automation Tester with a background in IT development and project management. Led my own IT company, where I was involved in software development, testing, and implementation, gaining a deep understanding of the software development process. Completed 960 hours of theory and 160 hours of hands-on training at AIT TR GmbH (Berlin), mastering the full testing cycle – from manual to automated UI and API testing.

TECHNICAL SKILLS

MANUAL & AUTOMATION TESTING

Experienced in testing software at all levels, including functional, compatibility, performance, and security. Participated in the full testing cycle – from test case design to result analysis and process optimization.

- **Test documentation development**, requirement analysis, test case creation, and bug reporting.
- **Functional testing**: verifying system compliance with requirements, analyzing user scenarios.
- **UI testing**: interface validation, regression, and cross-browser checks.
- **API testing**: ensuring request correctness, data transmission, and security.
- **Compatibility testing**: assessing performance across various devices, OS, and browsers.
- **Boundary and validation tests**: evaluating system behavior with valid and invalid inputs.
- **Performance testing**: analyzing system load capacity and identifying bottlenecks.
- **Security testing**: detecting vulnerabilities, assessing API and UI protection.
- **End-to-End testing**: comprehensive validation of system component interactions.

TOOLS & TECHNOLOGIES

- Automation: Selenium WebDriver, TestNG, JUnit, Cucumber, Appium
- API Testing: Postman, RestAssured, HttpClient, OkHttp, Fiddler
- Performance Testing: JMeter, Artillery
- CI/CD & Version Control: Git, GitHub, Jenkins, Maven, Gradle
- Programming: Java (Core & OOP), JavaScript
- Databases: SQL, NoSQL (MongoDB, PostgreSQL)
- Test Management: Jira, TestLink
- Security & Compliance: DSGVO, Privacy Policy

WORK EXPERIENCE

QA Manual & Automation Tester

AIT TR GmbH, Germany

2024 – 2025

Completed a full software testing training program, mastering UI and API test automation, test design, performance, and security testing.

CEO

GmbH "ConTrust", Ukraine

2015 – 2024

Led software development and implementation, established testing processes, automated business workflows, and ensured digital product quality.

Head of Public Organization

International Red Cross, Illichivsk, Ukraine

2011 – 2015

Coordinated projects, managed operations, and implemented reporting and quality control systems.

EDUCATION

QA Manual & Automation Tester

AIT TR GmbH, Germany

2024 – 2025

960 hours of theoretical training + 160 hours of practice, covering manual and automated testing, test design, API and UI testing, performance, and security testing.

Environmental Engineer

Odessa National Ecological University, Ukraine

2005 – 2010

Developed analytical thinking, a systematic approach, and data processing skills, which later contributed to IT project management and software testing.
